Form: 2021 W-2 Update for NJFLI Placement (M3-165)

The New Jersey FLI has been relocated to box 14 to coincide with NJSDI amounts -- this is for public plans or the tax only. Private plans with deductions will still appear in the state box area on the W-2 if setup.

System Update: 2021 ARPA Calculations for W-2 (M3-127)

The W-2 paper copies have been updated to include the calculations for determining the qualified ARPA amounts -- as opposed to the flat amount accrued for the year. If the override is set on the company's payroll service to ignore pre-tax, this will also ignore pre-tax on your W-2s for that particular company.

System Update: ACA Forms Duplicate Records (M3-140)

We have disabled the ACA forms from inserting default records in the downstream site, which prevents clients from processing records without syncing from upstream. This prevents the employee self-service from being unable to display the ACA forms due to multiple records.
