ANNOUNCEMENTS

If you're still managing Workers' Compensation with estimated annual premiums and large upfront payments, it may be time to consider a smarter approach.

Our **Pay-As-You-Go Workers' Compensation** solution allows you to align premium payments with your actual payroll to improve cash flow, reduce surprises, and potentially eliminate large audit adjustments at year-end. It's a more accurate, streamlined way to manage coverage.

When your payroll is processed with Payentry, we're able to seamlessly integrate with each payroll cycle. That means:

- No large upfront deposits.
- Payments based on real-time payroll data.
- Fewer administrative headaches.

Beyond convenience, we are a trusted resource for your business. Our team is responsive, proactive, and available when you need guidance, not just at renewal time. We take the time to review your coverage, identify potential savings, and ensure your policy truly supports your workforce and growth goals.

Complimentary Workers' Comp Consultation

We're pleased to offer you a complimentary consultation and a no-obligation review of your current Workers' Compensation policy. Even if you decide to stay where you are, you'll gain clarity and insights into your options.

Delivering **BETTER** **WORKERS' COMP**

Protection that works
with your payroll.

Pay-As-You-Go Workers' Comp simplifies premiums, improves accuracy, and supports better cash flow so coverage keeps pace with your business.

In this webinar, we'll explore how a payroll-powered Pay-As-You-Go Workers' Compensation program aligns premiums with actual payroll in real time to help businesses improve cash flow, reduce audit surprises, and eliminate manual reporting. Because premiums are calculated directly from payroll data each pay run, documentation is cleaner and more accurate throughout the year. That means a more streamlined audit process, simplified reporting, and far less stress when it's time for your annual audit.
